- ▶ Ideal for businesses with high local call volume.
- ▶ With a multitude of options, choose the best solution, usage plan, and any additional desired services or features.
- ▶ Unparalleled support- 24x7 customer service and technical support.

Custom Voice Services

Local PRI is ideal for customers with high local call volume. PRI service provides high capacity, high quality delivery of voice services at low cost per minute rates.

Digital T1 is the ideal solution for customers with a T1 card and high volume local calling traffic- comes equipped with 24 channels ready for inbound and outbound traffic.

Tailored Usage Plan

Our **Flat Talk** option is the perfect solution for businesses with heavy call volumes.

Measured options offer low cost per minute rates and are the ideal solution for businesses with standard to medium call volumes.

Flexible Billing Options

Multiple billing options are available to fit your preferences. Whether you require a single bill or have several locations, we can make it work for you. Automatic Account Debit is also available, allowing you the freedom to pay monthly invoices automatically without writing a check.

Features:

Virtual Exchange

An inbound-only foreign exchange service ideal for customers that want to maintain local presence in multiple area codes with one circuit. VX provides a local solution for customers who want the functionality of Multiple Exchange, but do not need full LATA coverage. VX terminates incoming telephone numbers from across the LATA onto local carrier access facilities.

Caller ID/Caller ID with Name
Failsafe Routing
Remote Call Forward

DIDs
Outbound ANI over T1
