### Features

- Dedicated Internet access
- Fully managed router

### Options

- EoF: 10M-100M delivery
- EoC: 5M, 10M and 20M delivery
- EoS: 10M delivery

*"We have T1 Internet and voice with Access One, and both have been very reliable. We rely on our phone and Internet to run our business, and Access One's uptime has been great. We recently renewed our services and were happy that they could continue to offer us competitive pricing and ultimately a great amount of savings."*
