Physical Security:

Smarter Security, Safer Buildings

Real-time insights without monitoring around the clock. Access One's intelligent solution provides proactive alerts and actionable insights so you never miss a beat.

Access One offers a fully integrated hardware and software solution that strengthens safety and simplifies security ownership. Today, our suite of connected devices provide organizations with meaningful insights into the health and safety of their environments. In the future, we'll deepen our use of machine learning to continue building technology that protects people, places and privacy at scale.

A Smarter Way to Secure Your Space:

Video Security

Accelerate response times and find footage instantaneously. Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Access Control

Manage doors, credentials and users across sites at ease with global access and active directory integrations.

Sensors

With a collection of eight onboard sensor readings, monitor for the health and safety of all environments.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Guest Check-In

Personalize the experience for all types of visitors while integrating with cameras and access control.

Strengthen Security, Simplify Management

Cloud-Based Management

Add ten, hundreds or thousands of devices to our cloud-based management platform. By aggregating data across devices into a centralized dashboard, cloud-based management provides users with a complete picture of what's going on across sites so teams can respond to incidents quickly and effectively.

Users can securely access their cloud-based management platform from any browser or device, or through a top-rated mobile app (available on iOS and Android).

Key Benefits:

- Unlimited user seats at no additional cost
- Customizable level of site permissions
- Access to top-rated mobile app
- Automatic updates and new features
- Monitor, save and share from one screen
- Unlimited cloud archiving

Loved by All Teams

IT Professionals

One less technology stack to worry about. Automatic security updates and end-to-end encryption ensure that teams are protected against known and emerging threats.

Security & Campus Safety

Real-time insights without monitoring around the clock. Our intelligent solution provides alerts of meaningful events so teams never miss a beat.

Facilities & Operations

Aggregate data onto one platform for actionable insights. Protect people, assets and facilities, while ensuring efficiency and productivity.

Human Resources

Scalable and flexible solutions for employee and guest insights in real-time. Easily build the smarter security solution that works for your organization.

Take Advantage of Smarter Security

Contact Access One today to learn how you can use the latest physical security and cybersecurity technology to improve your competitive advantage and protect your business.
