

ACCESSONE

POTS ALTERNATIVE

Access One offers a POTS (or traditional phone line) alternative that is *fully compatible with all existing analog devices including alarms, fax, POS, elevators, legacy modems, SCADA* and provides savings along with the best service in the industry.

KEY BENEFITS

➤ FIRE & SAFETY COMPLIANT

Approved as a Managed Facilities-based Voice Network (MFVN) by the New York City Fire Department (FDNY) & the California State Fire Marshall. (NFPA 72 & MFVN)

➤ AVAILABILITY

Availability and consistent pricing throughout the US, with cost savings up to 30%.

➤ ADVANCED VOICE FEATURES

Including ring-down (auto-dial when phone goes off-hook), forwarding, hunt groups and voicemail.

➤ SINGLE BILL & POINT OF CONTACT

Single bill for all locations nationwide. Single point of contact and streamlined management of orders, cellular contracts and SIMs.

➤ PCI & HIPAA COMPLIANT

For financial transactions and healthcare communications.

➤ EXPERIENCE NETWORK INSTALLATION

Enables turnkey deployment across your footprint, with confidence in project schedule and budget.

➤ REMOTE REPAIRS

Most repairs can be done remotely without a truck roll or an on-site visit.

➤ 24/7 MONITORING & REPORTING

Remote out-of-band monitoring & reporting with instant notification via text, email or call for critical alarm and voice circuits.

MULTI-LINE ANALOG

REPLACEMENT
