Using the Voicemail System

The voicemail system is menu driven. Listen to the voice prompts, and then press the keys on your phone to select an option.

Accessing Voicemail

When you have unheard voice messages waiting, the top of your phone will display a solid red light.

From your own phone:

- Press the Messages button and then press Connect. Or dial star (*) + your extension.
- Enter your voicemail pin + pound (#).
- Any new messages will be identified.

From another phone:

- From an external phone:
 - Dial your telephone number and press # when the voicemail starts to play.
- When prompted, enter your extension.
- When prompted, enter your voicemail pin + #.
- Any new messages will be identified.

Once you access the voicemail system, will be presented with the Voicemail Main Menu.

Replies to a Message—Dialing the Originator

- While listening to a message, you can call the person back by pressing 5.
- This capability will not work if the voicemail system was not able to identify the Caller ID information when the original voicemail was received or if your phone is configured with call restrictions that prevent you from calling the originator's number.

Changing Your Voicemail Password

- Access your voicemail box.
- From the Main Menu, press 3.
- Press 2 to change your PIN.

Recording Your Personal Greeting

- Access your voicemail box.
- From the Main Menu, press 3.
- To set up your greeting press 1, the system will playback your current greeting.
- Press 1 to record a new greeting or press 2 to use a standard greeting.
- If you don't record a personal greeting, a generic greeting will be played.
