

## PRESS RELEASE

### ACCESS ONE INC. RECOGNIZED ON CRN's 2022 MSP 500 LIST

For Immediate Release

**Chicago, IL – February 14, 2022** – Access One Inc. announced today that CRN®, a brand of The Channel Company, has named Access One to its 2021 Managed Service Provider (MSP) 500 list in the Security 100 category. CRN's annual MSP 500 list identifies the leading service providers in North America whose forward-thinking approaches to managed services are changing the landscape of the IT channel, helping end users increase efficiency and simplify IT solutions, while maximizing their return on investment.

With many customers still recovering from the impact of the ongoing pandemic, MSPs have become a vital part of the success of businesses worldwide. MSPs not only empower organizations to leverage intricate technologies but also help them keep a strict focus on their core business goals without straining their budgets.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

Access One has established a managed cybersecurity offering that is equally effective for digital asset protection at home, in-office or within the cloud. The company also helps businesses adopt effective cybersecurity standards based on the NIST CSF, CIS Controls, HIPAA and CMMC advisory frameworks. This helps ensure our clients have defensibility, transparency, and trust in mind when conducting digital business.

"In addition to having to adjust their own business operations to account for the changed conditions during the pandemic, MSPs have also seen increased demand for their managed communications, collaboration and security services," said Blaine Raddon, CEO of The Channel Company. "The solution providers on our 2022 MSP 500 list deserve credit for their innovative and game-changing approaches to managed services in these unpredictable times, as well as their ability to optimize operational efficiencies and systems without straining IT budgets."

"Access One insists on continuously advancing our clients cybersecurity hygiene as industry threats continue to thrive and persist. Our standards based reference architecture keeps our clients as safe as possible. It is our honor to be recognized as a partner that is prepared for securing the modern workplace," said Ryan O'Halloran, CTO/vCISO of Access One.

The MSP 500 list will be featured in the February 2022 issue of CRN and online at [www.crn.com/rankings-and-lists/msp2022](http://www.crn.com/rankings-and-lists/msp2022).
