

## TD53

# All-in-One Video Intercom, Video Security, and Door Access

## Overview

Verkada's TD53 Video Intercom is a versatile and multifunctional device featuring video intercom, access control, and security camera capabilities, all in a sleek and durable form factor. The TD53 delivers excellent call quality across diverse environments. Callers can be seen clearly in nearly any type of lighting condition, and both callers and receivers can be audibly heard in highly-trafficked areas.

Organizations can simplify their entry experiences with native and third-party integrations to access control systems. The TD53 is also equipped with a card reader that is compatible with several credential types and technologies. The intercom camera also offers the full recording and analytics functionality of Verkada's security cameras to boost visibility and security at entryways.

The TD53 is great for outdoor deployments and harsh environments. It is immediately recessed mountable on a double-gang box, but a variety of mounting options and accessories facilitate easy installation on almost any surface.

## Key features

### All-in-one functionality

Combined video intercom, access control, and security camera functionality simplifies and secures the entire entry experience.

### High-definition video

5MP camera resolution, Wide Dynamic Range, IR LEDs, and 130° FoV allow a clear visual of high-traffic entryways day and night.

### HF, LF, NFC, BLE support

Built-in card reader supports many common high-frequency, low-frequency, NFC, and Bluetooth LE credentials.

### Flexible installation

Family of mounts and accessories support diverse installation requirements.

### Sharp audio

Four microphones, a DSP, and a 90dB speaker combine to deliver superior noise suppression and echo cancellation for maximum audio clarity on every call.

### Built for durability

IP66 and IK08 ratings coupled with a removable lens cover ensure the intercom withstands strong impact and inclement weather.
